SERVICES

ABOUT US

EIHAB Human Services is a multilingual, multicultural nonprofit organization dedicated to serving children and adults with developmental disabilities and behavioral health challenges.

OUR MISSION

We believe every human being deserves the chance to succeed. Through high quality, compassionate care, we aim to help physically and mentally challenged individuals (many of whom live in undeserved communities) lead fulfilling, productive lives.

Our multidisciplinary team of clinicians, administrators, and direct support professionals work together to deliver exemplary care and person-centered planning, fostering greater independence and community inclusion for the many individuals we serve.

What we are about:

Empowering our individuals to reach their highest potential

Instructing the people we serve to be self-reliant

Habilitating their lives

Assisting with pre-vocational and dependent living skills

Bettering the people that we serve
